SECOND EDITION

GREETINGS FOR 1934

FROM

THE RUSTIC GARDENS

It is with pleasure we send this, our 1934 Price List, to our flower-loving friends throughout the entire country, and express our appreciation for the support accorded us.

During the past year we have added many new Dahlias, and several new varieties to our already large collection of Perennial and Rock Plants.

We wish to call your attention to our collections, from \$1.00 to \$5.00, and are confident you will find some to your liking.

We earnestly solicit your trade. If you have never given us an order, give us a small one now. It will receive most careful attention.

Very respectfully yours,

FRANCIS GAIS, Mgr.

OUR LOCATION

The Rustic Gardens are located on M-44, two blocks west of its junction with M-66. Visitors take either trunk line.

PLEASE READ CAREFULLY BEFORE ORDERING

ORDER EARLY. By so doing you will be assured of getting the plants or tubers wanted, as the demand for some varieties always exceeds the supply.

TIME OF SHIPMENT. Perennial and Rock Plants as soon as the frost is out and the ground is dried off enough to permit digging.

Dahlia Tubers—April 15 to May 10.

Dahlia Plants—May 15 to June 15.

Glads—Any time until May 20.

SUBSTITUTION. All orders will be filled exact and we will not substitute unless so instructed. Make second choice after April 1.

GUARANTEE. All plants, tubers, or bulbs guaranteed true to name, free from disease, and to grow if given proper care on arrival and after planting; we are willing to replace any that should prove otherwise.

TERMS. Remittance may be made in the most convenient way, or 25% with order, balance at time of shipment, or C. O. D.

MINIMUM ORDER. Orders for \$1.00 or over, post paid.

Less than \$1.00, add 10c for postage.

All orders are acknowledged the day received.

Keep a copy of your order. Write name and address plainly.

We are liberal in filling orders, as many of our customers can testify.

REFERENCE. We refer you to the Greenville State Bank of Greenville, Mich., as to our responsibility.

Our plants are state and federal inspected, which insures you of disease free plants, roots, tubers and bulbs.

EXTRA FOR EARLY ORDERS

We want a customer in every state in the U. S. and the one from each state that sends us the first order will be rewarded with \$1.00 worth of merchandise selected from our catalog. We will notify you at once if you are the first to order, so send us your order early.

You are invited to attend
THE FIRST ANNUAL MID-WEST DAHLIA
SHOW

in combination with
THE EIGHTH ANNUAL STATE DAHLIA
EXHIBITION

to be held Sept. 14-15, 1934

Grand Rapids, Michigan.

NEW OFFICIAL TRIAL GROUNDS

Michigan State College, East Lansing, Mich., has been selected as an Official Trial Grounds of the American Dahlia Society. Seedlings and new varieties will be tested and rated in the same manner as at Storrs. Further information and Entry Blanks can be obtained by writing Prof. C. E. Wildon, Michigan State College, East Lansing, Mich.

MICHIGAN—THE GREAT CENTRAL DAHLIA
SUPPLY MARKET

Michigan is now recognized as one of the leading Dahlia growing states. Soil and climatic conditions have proven ideal for the scientific culture of strong, healthy tubers and green plants. We invite you to visit our gardens next fall during blooming time. Also plan to attend the huge Dahlia Show to be held in Grand Rapids, Sept. 14-15, 1934. We will exhibit and be happy to greet you.

JOIN A DAHLIA SOCIETY

If you are not already a member, we urge you to join your local or State Dahlia Society. Your support is needed. If there is no Dahlia Society in your locality, join The American Dahlia Society—a national organization. Send membership application and \$2.00 annual dues to: C. Louis Alling, Secretary, 251 Court St., West Haven, Conn.

A DAHLIA CHAT

There is no secret about growing wonderful dahlias. It does not require expert knowledge. You can grow them in the smallest garden. All that is necessary to do is to grow the varieties that are the acknowledged leaders, securing them from reliable growers. Start this spring by purchasing MICHIGAN GROWN and guaranteed dahlia tubers and green plants. Good dahlias are not high priced. If you are not familiar with the best, leave the selection to us. Tell us the varieties you have, the amount you wish to spend, and we will send you a real collection.

Come and see them grow under field conditions. Dahlia lovers and growers, who are interested in the latest introductions, are cordially invited to visit our gardens from Aug. 15th to frost. You will have an opportunity to see them grow and to select the best.

All of the dahlia tubers, dahlia plants and rooted cuttings listed in the following pages are grown by us in our greenhouse or in our field.

Planting and culture instructions will be included with each shipment.

Our stock is of the finest quality and we are prepared to fill your order with as high quality tubers and plants as it is possible to produce.

Our tubers are field grown, without stimulating fertilizers, and our plants propagated from selected field grown stock that are true to name.

Our plants are grown cool, and are weather hardened for a week or ten days before shipping. No better plants can be grown, nor procured from anywhere, nor at any price, than the plants we offer you.

Many of our correspondents have asked: "What do you mean by green plants?" A green dahlia plant is propagated from a growing sprout or slip; rooted and potted the same as a geranium, or any other soft wooded plant that is commonly grown from cuttings.

An experience covering a number of years convinces us that if the plants are properly grown from selected stock they are in most cases equal to, or superior to tubers. There is no question about their producing larger and finer blooms, and more of them than from tubers, and usually come into good bloom earlier. True, some varieties will not make as large tubers from propagated plants, but on the other hand, many will make tubers of better quality and size.

Our plants are propagated right, grown right, packed right for shipment and we guarantee them to carry safely to any part of the American continent, and that they will reach you in growing condition.

DAHLIAS

New and Recent Introductions of Other Growers— Blue Ribbon Varieties—Large-Flowered Types

FOREWORD—On account of limited space our descriptions are brief, being confined to the color and other characteristics of the variety. All the varieties in the following list are Nationally known and recognized as outstanding in the dahlia world. This list contains a great many of the Honor Roll dahlias and all varieties listed have been winners of prizes in the leading shows in the past two years.

OUR FREE NAPHTHALENE SERVICE

We believe that we have completely eliminated all thrips. We had one of the dryest seasons in many years and did not spray or dust, yet we had no damage to our crop. But no matter how clean you regard your crop, it is very cheap insurance to keep it clean, and we have decided that we will add the right amount of Naphthalene to all bulbs we pack this season when the customer **so requests**.

ROCK PLANTS

There is a world of interest and pleasure in a rock garden. Whether it be an area so limited as to accommodate but a few irregular, weather-beaten rocks, clothed with diminutive rock-loving plants, or a larger grouping of rocks developing a beautiful expression of nature, a wealth of fascination and enjoyment is associated with it.

As space is limited, we will list only the ones that are used the most. If you do not find the variety you wish in the following list, write us, as we have only a limited amount.

PERENNIAL PLANTS

Perennials are hardy plants that come up year after year without any special care, and increase in numbers very rapidly. Among the perennials are found our most beautiful flowers, in a great variety of colors.

In the following list you will find plants that will give you a variety of bloom from early spring until frost. We find that most of the hardy plants, if cut back after they bloom and not allowed to go to seed, will give a second crop of bloom.

All plants in the following list are dug the day they are shipped.
